85-1035SH

Dry-type Single Phase Isolation Transformer
Copper Wound, silica/epoxy encapsulated
NEMA 3R wall-mount enclosure, for indoor-outdoor use
Primary: 240 X 480 volts
Secondary: 120/240 volts
Rated Output: 1.0 kVA
Frequency: 60 HZ
Electrostatic Shield between Primary and Secondary

Terminations: 10" leads in internal wiring compartment.
Temp. Rise: 115°C
Insulation System: 200°C
UL Listed File E3210
CSA Certified thru UL File E3210
Approx. weight: 29 Lbs.
Normally available from factory stock.

REF: EN-701
